The independent claim recites voice message delivery and answering by answering machines or recipients and a limitation for the following:

"playing a prompt to introduce the outbound call to a live recipient, wherein the prompt is selected from the group consisting of "This is a message from {Sender's name}", "This is a call from {Sender's name}", and "[Sender's name] has sent you a message","

The prior art of record teaches playing prompts to live recipients. The prior art of record is different because it does not teach a selection of a prompt from a group of prompts as recited in the limitation. New search updates revealed no other prior art which teaches the limitations in the context of the claims.
